<http://my-corona-tracker.web.app/> – Ionic WPA

<https://play.google.com/store/apps/details?id=com.ionicframework.tino163709> – Ionic App (Got From Upwork)

PROJECTS

1) Human Resource Management System — *BrainTec Labs*

In this system, an attendance register is maintained at the front-office and employees enter their in and out times. The HR department does the attendance and leave calculation manually at the end of each month. This increases the paper work and makes the record maintenance tedious. This software was created for internal user

This system contains: time and attendance module, Leave Module, HR management module, employee self-service module

2) Recruiter's Back Office System — *BrainTec Labs*

A secured online Pay & Bill solution that redefines the middle and back office functions of Recruitment Businesses

3) Custom Import-Export Component As Third Party Plugin — *BrainTec Labs*

It's a one type of component which is used to import data from excel or csv files, and store those data into specific tables.

4) Payroll (To Calculate UK Payroll) — *BrainTec Labs*

It's a product which was created to process payroll for UK business

5) Confirmation — *Thomson Reuters*

Tax & Accounting Project - <https://www.confirmation.com/>
